

BLUETOOTH CONNECTION

1. The black square box is the Bluetooth receiver.
2. Press and hold the multi-function button (in the centre of the Bluetooth receiver) for 3 seconds, until you hear the voice prompt “Power On”.
3. If the device was already on and turns off, then press the multi-function button again. The device will automatically enter Pairing mode, and the indicator will flash red and blue alternately.
4. Using your music player (e.g. phone, tablet, etc), connect to the sound system by selecting UGREEN-BT505 from your phone’s Bluetooth list of available devices.
5. A slow flashing blue indicator and a voice prompt saying “Connected” will indicate that pairing is complete.
